

Refunds Policy

Daraz Knowledge Base — Customer Support Reference Document

Refund Methods

- Original payment method (credit/debit card, bank transfer).
- Daraz Wallet credit (often faster, may include bonus credit as an incentive).
- Cash on Delivery orders are refunded via bank transfer or wallet.

Refund Timelines

- Daraz Wallet: 1-3 business days after approval.
- Bank/Card refunds: 7-14 business days, depending on the bank.
- Refund is initiated only after the returned item passes quality inspection.

Partial Refunds

Partial refunds may apply when only part of a multi-item order is returned, when a minor defect is found but the customer chooses to keep the item, or when a promotional discount must be adjusted proportionally.

Refund Status Tracking

- Check refund status under 'My Orders' > 'Refund Status'.
- Statuses include: Refund Initiated, Processing, Completed.
- Customers receive a confirmation notification once funds are released.

Failed or Delayed Refunds

If a refund does not appear within the stated timeline, customers should first check with their bank, then contact Customer Support with the order ID for escalation.
